

McLaughlin Racing Results

Q. What's the most important part of a racing sailboat?

A. THE SKIPPER!

The folks at McLaughlin will be the first to tell you that! Our boats are only as fast as the young men and women who race them. They make us look good. But when you look at the statistics of two World Championships where our boats were divided equally and without prejudice to all competitors the results are undeniably impressive. (And we don't count regattas or championships where we were the **ONLY** Charterer!).
